**VANCOUVER COMMUNITY COLLEGE
EDUCATION COUNCIL
CERTIFIED RESOLUTION
March 10, 2026**

RESOLVED THAT Education Council recommends the Board of Governors approve:

- Reduction in credits for the Automotive Collision and Refinishing Foundation Certificate (Online Youth) program
Note: The revised curriculum was approved by Education Council in December 2025.
- Changing the program name of the Clean Energy Technology Diploma to Construction Electrician & Clean Energy Diploma

RESOLVED THAT Education Council advises the Board of Governors not to approve the 2026/27 Enrolment Plan as currently proposed as many of the proposed reductions have no educational rationale and are not consistent with the College's mission, values and stated strategic priorities; this advice should include a summary of the concerns raised in the meeting prepared by the Education Council Chair in consultation with Education Council members to be provided to the Board.

In addition, Education Council requests the Board of Governors create a public opportunity for consultation with programs being reduced at a future Board meeting to share comments and concerns about the impact of these program reductions prior to making a final decision.
